

STOP AND THINK APOLOGY LETTER

Dear Class,

I have broken one of the rules and have been sent to the Stop and Think chair. I know that we have rules to follow during class that allow you to learn without interruptions. I understand that it does not show good character to break the rules, and I will try my best to follow the rules from now on. I want to do what is right.

I know about wrong.

Wrong is wrong no matter who does it.

Wrong is wrong even if I don't get caught.

Wrong is wrong even if someone else does it, too.

Wrong is wrong even if I don't admit that I did it.

I know about right.

Right is right all the time.

Right is right even when I am the only one doing right.

Right is right even when others make fun of me.

Right is right and will earn respect and make me a leader.

Right is right and doing right will make me feel proud.

Right is right and will earn rewards in life for me.

Any time I am given a choice of behavior, I will try my best to do the right thing.
